Interests

I am passionate about philosophy, particularly the philosophy of the Far East tradition. However, I also appreciate the great thinkers of Europe and America. My love for philosophy is intertwined with a fascination for fiction literature. In addition to immersing myself in the world of fiction, I enjoy going on gravel cycling adventures. Furthermore, in my free time, I take pleasure in listening to music and exploring the realms of computer games.

Experience

08.2020 – 12.2020 07.2021 – 01.2022	**Warehouse Employee – Logistics** **Amazon Fulfillment sp. z o.o.** Bielany Wrocławskie Employee at a logistics center Responsibilities: Warehousing of goods, consolidation of processes, processing and quality control of customer returns.
